- 1. Claims 9-21 are allowed.
- 2. The following is an examiner's statement of reasons for allowance:

After carefully reviewed the Applicant's arguments filed 10/16/03, and updated prior art of record, the Examiner finds that the Applicant's arguments are reasonable and strongly persuasive. Therefore, they place the application in condition for allowance. The primary reason for the indication of the allowability of claims 9-21 is the inclusion therein, in combination as currently claimed, of the limitation of the method of fabricating a semiconductor package wherein the lead frame is between chips and has a protrusion disposed opposite to the spherical terminal. This limitation is found in claims 8-21 and is neither disclosed nor taught by the prior art of record, alone or in combination.
